The Company
Cloudia Research S.p.A. is an Innovative SME founded in Milan in 2016 operating, mainly in Italy, in the field of digital transformation with an offering focused on ERP (Enterprise Resource Planning) and a growing focus on enabling technologies such as Cloud and AI. Cloudia Research S.p.A. supports companies in the process of digital transformation, designing and providing innovative and customized solutions that permit the implementation of computerized, automated and interconnected management systems that replace previous ones, improving their operational efficiency. Cloudia Research operates through two offices, in Milan and Messina, where the "Academy" training hub is located, created in collaboration with the University of Messina.
