PRESS RELEASE

The Company

La SIA S.p.A. is a company active in the engineering and design sector, specializing in the design of critical infrastructures in the fields of telecommunications, civil construction, mobility infrastructure and energy plants, through the use of cutting-edge technologies and specific know-how. La SIA is among the top 100 Engineering Companies in Italy, and among the first movers in the introduction of BIM (Building Information Modeling) methodology, also employed for the purposes of safety, predictive maintenance and the protection of the country's artistic and historical heritage. The Company, established in 2004, operates through three business units: the "Civil & Design" line, dedicated to mechanical structural engineering, electrical engineering, and design in architecture; the "Energy & Infrastructure" line, engaged in specialized consulting in project management services, construction and safety management, and training; and finally, the "Telecommunications" line, entirely dedicated to the design and implementation of fiber optic and mobile radio networks.
