29 September 2025 - Board of Directors

**Half-yearly financial report as of 30 June 2025, voluntarily audited**

GREEN OLEO will promptly notify any changes to the announced dates.

GREEN OLEO (GRN:IM – ISIN IT0005549768) is one of the leading European producers of fine oleochemicals from renewable sources. Based in Cremona, Italy, the company was acquired by the Buzzella family in 2012, when it was merged with a business unit historically active, since 1923, in oleochemical production and previously owned by Croda Cremona S.r.l.

The Company uses locally sourced raw materials, such as by-products from food industry processing (acid oils mainly from olive and animal fat), which are subjected to internal chemical processes such as splitting, distillation, separation, fractionation and hydrogenation, to obtain a variety of oleochemical products such as fatty acids distilled to different matrices depending on the starting fat, stearic acids (stearines), oleic acid, glycerins, fatty acid derivatives (soaps), esters. The Company operates in the Cremona plant, in an area of 64,000 square metres (of which about 20,000 square metres are covered) where 75 resources are employed, with an annual production capacity of 65,000 tonnes, of which 50,000 tonnes of fatty acids and glycerins and 15,000 tonnes of esters. The company's customers are industrial companies operating in multiple sectors such as detergents, elastomers, candles, paints, rubber and tyres, personal care and cosmetics, which, through further processing specific to the target sector, produce the final products for the end-consumer.
