FAE Technology S.p.A. - Benefit Company is an Italian electronics sector Group listed on the Euronext Growth Milan market of the Italian Stock Exchange that operates as an Original Design Manufacturer (ODM). It comprises several highly specialized entities: FAE Technology, the parent company, engages in professional ODM and EMS (Electronics Manufacturing Services) for industry; Elettronica GF operates in custom embedded computing; and IpTronix is a design house that develops high-complexity electronic applications. MAS Elettronica is a tech company specializing in the development of proprietary embedded solutions and ARM architectures for the industrial market. Founded in 1990 in Gazzaniga (BG) by Francesco Lanza, who began by producing a small series of electronic boards, FAE Technology has been led since 2008 by his son Gianmarco Lanza, current Chairperson and Chief Executive Officer. The Group, through several dedicated and integrated assets, can very rapidly enable electronic innovation in the various sectors in which it plays a central role, including e-mobility, the Internet of things (IoT), industrial automation 4.0 and aerospace. FAE Technology is known for its focus on innovation - promoting open innovation and shared research at the "Kilometro Rosso" hub - and on sustainability and corporate social responsibility, becoming a Benefit Company on May 13, 2022. The Group benefits from strategic partnerships and memberships with major sector players and renowned universities and research centers, including the "Senseable City Lab" at MIT (Massachusetts Institute of Technology) in Boston. The Group reports a consolidated value of production of Euro 75.5 million for 2024, up 18.2% on 2023.
