

PRESS RELEASE

Circle GROUP announces the signing of four new contracts worth €150,000 for customs upgrade projects in the rail and intermodal logistics sector

Milan, February 24, 2026

[Circle S.p.A.](#) ("CIRCLE" or the "Company") - an Innovative SME listed on the **Euronext Growth Milan market**, heading the Group specialized in the process analysis and the development of solutions for the digitalisation of the port and intermodal logistics sectors, as well as in the international consultancy on Green Deal and energy transition topics – announces the signing of **four new contracts** with leading Italian operators active in rail and multimodal logistics transport, for a **total value of over €150,000**, aimed at implementing structured projects for the **upgrade and migration of customs processes related to MILOS eCustoms**.

The initiatives are part of a context of significant regulatory and technological evolution affecting the customs and logistics sector, particularly in light of recent developments related to the **MILOS® eCustoms** system and the new **AIDA 2.0** modules. The project also involves the introduction of IoT identifiers for tracking goods between temporary storage warehouses, ensuring greater operational continuity and the evolution of existing rail traffic.

In particular, Circle will assist each operator in migrating IT flows to the new AIDA architecture, adapting document and operational flows relating to train arrivals and departures, yard entry management, rail mission transfers, and updating process messages and the application front-end. This reengineering will also resolve issues related to adjustments and cancellations of shipments and support more efficient and interoperable management throughout the entire multimodal transport chain.

The four contracts are part of the AIDA 2.0 adaptation process already undertaken by the Group for other application areas and represent a further step in strengthening Circle's digital solutions dedicated to rail and customs logistics. The duration of the activities is approximately 6 months.

Some of the contracts are also part of the initiatives promoted by the **LogIN Business** call for tenders of the Ministry of Infrastructure and Transport and confirm Circle Group's strategic positioning in co-financed projects linked to the **PNRR**, supporting the digitalization, interoperability, and sustainability of logistics and multimodal processes.

*"The process of modernizing customs and logistics systems is entering a decisive phase, with significant impacts on the entire rail and intermodal sector," commented **Luca Abatello, CEO of Circle Group**. "Through these new upgrade and migration projects, we are supporting leading operators in adopting the new AIDA 2.0 architecture, helping to ensure operational continuity, greater traceability, and increasingly integrated management of multimodal flows. This is a further step in the growth path outlined in our **"Connect 4 Agile Growth"** business plan, which is aimed at supporting the digitalization and sustainability of national logistics in a European context."*

This press release is available in the Investor Relations section of the website www.circlegroup.eu and www.1info.it.

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME leading Circle Group, a company listed on Euronext Growth Milan since 2018 and specialized in the analysis and development of solutions for innovation and digitalization in the port and intermodal logistics sectors, as well as in international consultancy on Green Deal and energy transition topics.

The Group includes the software houses **Info.era, NEXT Freight, eXyond, Cargo Start**, the consulting firms **Magellan Circle and Magellan Circle Italy, NEXT Customs**, as well as the affiliated company **ACCUDIRE**.

In the field of digital innovation, the **Milos® Intelligence** platform integrates advanced technologies such as AI, simulation, and Digital Twin to support decision-making processes and the digitalization of systems, through solutions like the **Extended Port Community System, MasterSPED®, Milos® TOS, Milos® MTO, Milos® TFP, Milos® Global Supply Chain Visibility, and StarTracking®**. Complementing the offering, **Federative Services (cloud-based)** enable a more efficient migration towards digital business models.

Through **Magellan Circle and Magellan Circle Italy**, the Group is active in Brussels and across Europe in **advocacy activities with the European Institutions**, supporting public bodies and companies with services in **Strategic Communication and Advocacy and EU Funding Accelerator**, with a focus on the Green Deal and energy transition.

With **Cargo Start**, specialized in technological solutions for air cargo, Circle has strengthened its offering in a strategic segment of the **Connect 4 Agile Growth** industrial plan. With **eXyond**, the Group operates in advanced **infomobility** services (InfoBlu NewGen) and telematics solutions for the logistics, transport, and insurance sectors (Kmaster).

*Circle also holds a 22% stake in the innovative startup **ACCUDIRE**, which offers a collaborative platform for document management along global supply chains, starting from **e-CMR** and **e-DDT** (electronic consignment note). With **NEXT Customs**, the Group develops digital services for customs optimization, contributing to the harmonization of processes in line with the strategic directions of **Connect 4 Agile Growth**.*

***Circle S.p.A. has been listed on the Euronext Growth Milan** market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).*
