Treviso, Italy – April 10th, 2026.

De' Longhi S.p.A. announces the starting of a share buyback program beginning from April 13th, 2026, within the terms authorized by the shareholders' Annual General Meeting ("AGM") held on April 30th, 2025.

The program aims to invest in the Company's shares in the best interest of the Company and its shareholders, given the current share price and available liquidity that makes this operation economically viable.

The share buyback will have a duration of up to 6 months, for an amount of approx. €60 million (equal to approximately 1.2% of the share capital at current prices), not beyond the maximum limit of the number of shares within the terms authorized by the AGM, subject to the cases of early termination. The purchase price may not be more than 15% lower or higher than the average reference price recorded by the stock in the market session on the previous three days. Any subsequent changes to the program will be duly communicated to the market in the manner and within the terms established by law.

The purchases will be carried out exclusively on regulated markets where the Company's ordinary shares are exchanged, in compliance with article 144-bis of the Consob's Issuer Regulation and the applicable legal and regulatory provisions in force, and in accordance with the operating modes established in the regulations for the organization and the management of the markets themselves, to ensure equal treatment between shareholders and compliance with all public disclosure obligations.

To this end, De' Longhi S.p.A. has signed a contract with a third-party intermediary, BofA Securities Europe SA, which will proceed with the purchase of treasury shares in full independence, in compliance with the contractually agreed parameters and criteria, as well as the applicable legislation and the aforementioned shareholders' meeting resolution.

As of today, the Company directly holds 1,756,513 treasury shares.
