- **Net commissions: €92.1 million (+5%)**
- **Total consolidated revenues: €140.6 million (+5%)**

“We close the first quarter with solid economic results and constructive expectations for the current year, despite evident adverse external factors,” - commented Saverio Perissinotto, Chief Executive Officer of ANIMA Holding S.p.A. - “The diversification of our business channels and our high level of operational efficiency have once again proven to be key strengths.”

Milan, May 4th 2026 – ANIMA Holding S.p.A. (ANIM.IM) Board of Directors, in a meeting held today chaired by Patrizia Grieco, approved the consolidated results of the three month period ending 31 March 2026.

Net inflows for the quarter (excluding Class I insurance mandates) were negative for €5.8 billion, of which €5.7 billion was attributable to the outflow of assets previously managed under mandate on behalf of Etica SGR, as announced to the market more than a year ago (see the press release of 9 January 2025). Despite this, and the market downturn in March following the outbreak of the conflict between the USA/Israel and Iran, **total assets under management and administration** at the end of March 2026 remained higher than a year earlier (€203.3 billion compared to €202.1 billion, +1%).

Net recurring commissions reached €92.1 million (+5% vs. €87.5 million in Q125); **performance fees** amounted to €29.3 million, substantially unchanged vs. €29.4 million in Q125. Considering these, along with Other Revenues, **total revenues** reached €140.6 million (+5% vs. €134.2 mn in Q125)

Ordinary **operating expense** was €39.5 million, a slight decrease (-1%) compared to €39.9 million in Q125. The cost/income ratio (excluding performance fees from total revenues) went down to 35.5%.

As a reminder, the line item **Other income/expense** at the end of March last year included a one-off €31.8 million revenue from a distributor, calculated as a function of its net inflows of the previous five years. For this reason only, **profit before tax**, which registered at €88.6 million, is 19% lower than the €109.9 million of the first quarter of 2025; in the same way, **net profit** was €61.4 million (-14% vs. €71.8 million in Q125).

Conversely, **Adjusted net income** (which does not take into account extraordinary income or charges, and/or non cash-out items such as intangibles depreciation and the above-referenced one-off revenue) was €69.9 million in the first quarter, with a 13% growth vs. €61.9 million registered in the first quarter of 2025.

Consolidated net financial position as of March 31th 2026 is €558.3 million net cash (compares to €221.3 million net cash at March 31th 2025 and €491.2 million net cash at the end of 2025). The year-to-date change reflects the cash generation from operations, partially offset by a decrease in value of the

1.7% stake held in Banca Monte dei Paschi di Siena; it should be noted that, unlike in 2025, this year's figure at 31 March does not include dividend payables (€162.6 million), as these were approved in the subsequent month of April.
