

## EUROTECH: BOARD OF DIRECTORS APPROVES THE RESULTS OF THE CONSOLIDATED INTERIM MANAGEMENT REPORT AS AT 31 MARCH 2026

### REVENUES UP 29.3% TO EURO 10.7 MILLION AND SIGNIFICANT IMPROVEMENT IN OPERATING PERFORMANCE

#### Main consolidated economic and financial results as at 31 March 2026:

- **Revenues:** Euro 10.7 million (up 29.3% compared to Euro 8.3 million as at 31 March 2025);
- **First margin:** Euro 5.3 million and 49.2% of revenues (Euro 4.1 million and 49.6% of revenues as at 31 March 2025);
- **EBITDA:** Euro -1.8 million (+52.8%, an improvement compared to Euro -3.7 million as at 31 March 2025);
- **Adjusted EBITDA:** Euro -1.6 million (+55.2% compared to Euro -3.6 million as at 31 March 2025);
- **EBIT:** Euro -2.8 million (+42.2%, an improvement compared to Euro -4.8 million as at 31 March 2025);
- **Group net result:** Euro -2.6 million (Euro -5.0 million as at 31 March 2025);
- **Net financial position:** Euro 10.0 million (Euro 16.8 million as at 31 December 2025).

**Amaro (Udine), Italy, May 14, 2026** – The Board of Directors of **Eurotech S.p.A.**, a multinational company that designs, develops and supplies Edge Computing and Internet of Things (IoT) solutions, integrating software, hardware, cybersecurity and services, and whose shares are listed on Euronext STAR Milan, today reviewed and approved **the results for the first three months of 2026**.

**Massimo Milan, CEO of Eurotech, said:** “*The first quarter of 2026 confirms the operating and financial progress initiated during 2025.*

*Revenue growth, the improvement in operating profitability and the reduction in net financial debt reflect the ongoing transformation and efficiency improvement process.*

*Although the market environment remains complex and volatile, Eurotech continues to execute the Industrial Plan (Eurotech neXt) with discipline, strengthening its operating competitiveness and consolidating its financial structure, with the aim of achieving sustainable growth.”*

#### Economic performance for the period

**Consolidated revenue** for the first quarter of 2026 amounted to Euro 10.7 million, compared with Euro 8.3 million in the first three months of 2025 (+29.3%). The change is mainly attributable to the order intake dynamic recorded in the second half of 2025, which continued positively during the first quarter of 2026. At constant exchange rates, revenue growth would have stood at 36.8%.

With reference to the breakdown of **revenues by geographical area** based on the customer's location, the first quarter of 2026 reported:

- **European Union:** Euro 5.5 million (51.4% of the total), up 36.6% compared to Euro 4.0 million in the first quarter of 2025;
- **United States:** Euro 1.7 million (16.2% of the total), more than tripled compared to approximately Euro 541 thousand in the first three months of 2025;
- **Japan:** Euro 3.4 million (31.7% of the total), +12.4% compared to Euro 3.0 million in the same period of 2025;
- **Other areas:** approximately Euro 76 thousand (0.7% of the total), -89.0% compared to approximately Euro 693 thousand in the first quarter of 2025.

The **first margin** stood at 49.2%, compared with 49.6% recorded in the first quarter of 2025. The substantial resilience of the first margin reflects **the operating improvement and supply chain optimisation measures** implemented by the Group, despite an environment characterised by high volatility in the procurement of certain strategic components.

**Operating costs** in the first quarter of 2026 amounted to Euro 7.4 million, down from Euro 9.0 million in the first three months of 2025. The decrease is mainly attributable to the actions aimed at improving the efficiency of the operating structure and containing personnel costs. **Non-recurring costs** in the first three months of 2026 amounted to Euro 0.1 million, substantially stable compared with the same period of 2025, and relate to the Group's reorganisation activities.

**Adjusted EBITDA** as at 31 March 2026 amounted to Euro -1.6 million, compared with Euro -3.6 million in the same period of 2025. The significant improvement in Adjusted EBITDA reflects both volume growth and the effects of the efficiency improvement and cost containment measures.

Including non-recurring costs, EBITDA for the first three months of 2026 amounted to Euro -1.8 million, compared with Euro -3.7 million in the first three months of 2025, representing an improvement of 52.8%.

**EBIT**, reflecting depreciation and amortisation charged to the income statement in the first three months of 2026, stood at Euro -2.8 million, compared with Euro -4.8 million in the first three months of 2025.

The **net result** for the period, amounting to Euro -2.6 million, reduced the first-quarter loss by 47.1% compared with Euro -5.0 million in the same period of 2025.

### Financial statement and financial position for the period

As at 31 March 2026, the Group reported **net financial debt** of Euro 10.0 million, compared with Euro 16.8 million as at 31 December 2025. The reduction in net financial debt is mainly attributable to the effects of the capital increase completed in February 2026, partially offset by the increase in net working capital, substantially due to higher inventory levels.

The strengthening of the capital structure completed during the first quarter of 2026 enabled the Group to improve its financial structure in support of the execution of the Industrial Plan.

**Net working capital** in the first quarter of 2026 amounted to Euro 11.4 million, compared with Euro 9.7 million as at 31 December 2025. The change is mainly attributable to the variation in inventories, as well as to the collection and payment flow dynamics typically associated with the quarterly business trend.

**Equity** amounted to Euro 61.2 million, compared with Euro 52.7 million as at 31 December 2025.

### **Significant events occurring after 31 March 2026**

On 29 April 2026, Eurotech announced the resolutions adopted by the Ordinary and Extraordinary Shareholders' Meeting concerning the approval of the 2025 Financial Statements, the renewal of the corporate bodies and the granting of a delegation to increase the share capital by up to a maximum of Euro 20 million, as well as the resolutions adopted by the newly appointed Board of Directors which, among other things, renewed the powers granted to CEO Massimo Milan.

### **Outlook and expected business development**

The international macroeconomic and geopolitical environment continues to be characterised by volatility and uncertainty. Although these factors do not directly affect the Group's business, they may generate pressure on costs and on the availability of certain key components, also in relation to energy price trends and tensions in the memory and data storage device (SSD) market.

The Group continues to closely monitor the evolution of the scenario, adopting appropriate supply chain and procurement management actions aimed at mitigating potential operational impacts.

In light of the first-quarter results, the evolution of the order backlog and the improvement initiatives undertaken, Management confirms a progressive improvement in the Group's operating performance throughout 2026.

### **Conference call to present the consolidated results as at 31 March 2026**
