

PRESS RELEASE

CIRCLE Group wins a new contract worth approximately €700,000 for Support Services and the Evolution of the SINFOMAR Port Community System (PCS)

The 12-month contract reinforces the Group's role as a leading technology partner in the development and evolution of digital platforms that support interoperability among port communities

Milan, July 2, 2026

CIRCLE Group ("CIRCLE" or the "Company") – an Innovative SME listed on the **Euronext Growth Milan** market, heading the eponymous Group specialised in process analysis and the development of solutions for the innovation and digitalisation of the port and intermodal logistics sectors, as well as in international consulting on Green Deal and energy transition matters – announces that it has been awarded a new contract worth approximately **€700,000**, with a duration of **12 months**, covering support, maintenance, and enhancement services for the SINFOMAR Port Community System (PCS).

The contract includes user support, routine and evolutionary maintenance of the platform, specialized support for processes related to maritime, rail, and road traffic, management of integrations with external systems and services—including the main systems involved in logistics and customs processes—as well as functional analysis activities aimed at enhancing the solution and the digital services offered by AdSP MAO to the port community.

SINFOMAR is a strategic digital platform for managing port community and intermodal processes, enabling interoperability among the various operators in the logistics supply chain and integration with the main external systems involved in logistics and customs processes. Used daily by thousands of users and hundreds of public and private operators, the platform is a fundamental digital infrastructure for the efficiency and operational continuity of the logistics and port system of the Eastern Adriatic Sea (Ports of Trieste and Monfalcone).

The activities covered by the contract will guarantee the platform's operational continuity and the constant updating of its functionalities, ensuring its reliability, efficiency, security, and

technological evolution to support the digital transformation of the supply chain and intermodal processes.

This contract award further strengthens CIRCLE Group's position as the leading technology partner for the digitization of Italian logistics and port hubs, in line with its strategy to develop interoperable platforms and high-value-added digital services.

Luca Abatello, CEO of CIRCLE Group, commented: *"Winning this contract confirms the value of the Group's expertise and know-how in supporting the digital transformation of logistics and intermodal transport. Working on the evolution of a strategic platform like SINFOMAR (and in such an important port system as Trieste-Monfalcone) means making a concrete contribution to making port and intermodal supply chain processes increasingly efficient, interoperable, and secure. This project reinforces our growth trajectory and is fully aligned with the strategy outlined in the 'Connect for Agile Growth' Business Plan, which is focused on developing interoperable platforms and innovative services to support the evolution of logistics hubs."*

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME heading Circle Group, listed on Euronext Growth Milan since 2018 and specialised in process analysis and the development of solutions for the innovation and digitalisation of the port and intermodal logistics sectors, as well as in international consulting on Green Deal and energy transition matters.

The Group includes the software houses **Info.era**, **NEXT Freight**, **eXyond**, **Cargo Start**, **QMap**, the consulting firms **Magellan Circle** and **Magellan Circle Italy**, **NEXT Customs**, and the associate company **ACCUDIRE**.

In the field of digital innovation, the **Milos® Intelligence** platform integrates advanced AI, simulation and Digital Twin technologies to support decision-making processes and systems digitalisation, with solutions such as the **Extended Port Community System**, **MasterSPED®**, **Milos® TOS**, **Milos® MTO**, **Milos® TFP**, **Milos® Global Supply Chain Visibility** and **StarTracking**. Complementing the offer, **Federated Services (cloud-based)** enable a more efficient migration towards digital business models.

Through **Magellan Circle** and **Magellan Circle Italy**, the Group operates in Brussels and across Europe in advocacy activities with European Institutions, supporting public bodies and companies with **Strategic Communication and Advocacy** and **EU Funding Accelerator** services, with a focus on the Green Deal and energy transition.

With **Cargo Start**, specialised in technology solutions for air cargo, Circle has strengthened its offering in a segment that is strategic to the Connect 4 Agile Growth industrial plan. With **eXyond**, the Group is active in advanced infomobility services (InfoBluNewGen) and telematics solutions for the logistics, transport and insurance sectors (Kmaster).

Circle also holds a 20% stake in the innovative start-up **ACCUDIRE**, which provides a collaborative platform for document management along global supply chains, starting from e-CMR and e-DDT (electronic consignment notes). With **NEXT Customs**, the Group develops digital customs optimisation services, contributing to process harmonisation in line with the strategic directions of Connect 4 Agile Growth.

Circle S.p.A. has been listed on the Euronext Growth Milan market of Borsa Italiana since 26 October 2018 (alphanumeric code: CIRC; ordinary share ISIN code: IT. 0005344996).
