PRESS RELEASE

EUROGROUP LAMINATIONS JOINS THE INTERMONTE VALORE ITALIA INDEX

Baranzate (MI), 2 July 2026 – EuroGroup Laminations S.p.A. ("**EuroGroup Laminations**", "**EGLA**" or the "**Company**") - a global leader in the design, production and distribution of laminations and cores for e-motors, generators and transformers – announces that it has been selected from among the 100 companies listed on the Borsa Italiana that make up the **Intermonte Valore Italia Index**, which is dedicated to SMEs with a market capitalisation of less than one billion euros and which are not included in the FTSE MIB.

The Index was created with the aim of promoting the universe of listed Italian small and medium-sized enterprises, acting as a meeting point between entrepreneurship, the capital markets and the national economy. It provides a genuine cross-section of the best expertise within the Italian economy, helping to broaden and diversify investment opportunities compared with traditional indices, for both domestic and international investors.

Companies are selected using rigorous technical and financial criteria, designed to ensure adequate levels of liquidity, transparency and investability, including: minimum free float, sound governance standards, analyst coverage, financial sustainability and debt levels, as well as representativeness within the Index itself.

The Index forms part of **PMI2Change**, Banca Generali's innovative project launched on 1 July 2026 at Borsa Italiana's Palazzo Mezzanotte, which aims to support the growth and competitiveness of Italian entrepreneurs by fostering the development of listed domestic SMEs. The project tackles the issue of limited liquidity and undervaluation of listed SMEs, helping to create the best conditions for a more efficient match between capital and businesses.

Marco Arduini, CEO of Eurogroup Laminations commented: *"Our inclusion in the Intermonte Valore Italia Index confirms the soundness of the path our company has taken and our commitment to creating sustainable value for all our stakeholders. This recognition strengthens the company's position in the financial markets and provides further motivation to continue resolutely on our path, continuing to invest in innovation and the development of high-value-added solutions for our sector. We would like to thank Banca Generali and Intermonte for spearheading a system-wide initiative that promotes and supports SMEs on the Italian stock market".*

The initiative builds on the expertise of Intermonte, a leading Italian player in the sector with over thirty years' experience in the financial markets – particularly in SME research, sales & trading, market making and investment banking – which has been an integral part of the Banca Generali Group since the start of 2025.

Building on the Index, Banca Generali, together with Investlinx and Intermonte, has launched a new actively managed, PIR-compliant ETF that will invest primarily in the universe defined by the Index itself. Banca Generali has committed to supporting the launch of the fund with an initial capital inflow of €100 million in the first few months, with a gradual increase in exposure to reach €500 million in the medium term. It is therefore estimated that the initiative could help generate new investment flows of €1–2 million per day, representing over 5% of the Index's free float.

EGLA: *EuroGroup Laminations is a global leader in the design, manufacture, and distribution of stators and rotors for electric motors and generators. The Group operates through two business units: (i) E-mobility solutions, dedicated to the design and manufacture of motor cores (i.e., stators and rotors) for electric motors used in the propulsion systems of electric vehicles, as well as a wide range of non-propulsion automotive applications; and (ii) Industrial & Infrastructure solutions, dedicated to the design and manufacture of stators and rotors for various industrial applications, home automation, HVAC equipment, wind energy, logistics, and pumps. The Group is also active in the transformer sector. Headquartered in Baranzate (MI), EuroGroup Laminations generated revenues of approximately €831 million in 2025 and currently employs approximately 3,000 people (excluded temporaries employees), with 8 production facilities in Italy and 7 abroad (1 in Mexico, 2 in China, 1 in the United States, 2 in India, and 1 in Tunisia), and an order backlog for the E-mobility solutions segment with an estimated value of approximately €2.7 billion and a pipeline of €2.1 billion.*
