PRESS RELEASE

DE NORA RECEIVES FINAL TRANCHE OF ORDERS FOR MOEVE, THE LARGEST GREEN HYDROGEN PROJECT IN SOUTHERN EUROPE

Milan, 06 July 2026 – Industrie De Nora S.p.A. ("**De Nora**"), an Italian multinational company listed on Euronext Milan, specialized in electrochemistry, water treatment systems and sustainable solutions, announces that it has received from the joint venture thyssenkrupp nucera AG & Co. KGaA ("thyssenkrupp nucera") the remaining tranche of orders relating to the **Moeve** project in **Andalusia**, Spain, dedicated to **green hydrogen** production.

The award announced today completes the orders already received in May and previously disclosed to the market, relating to De Nora's scope of supply for the project. The supply includes electrolytic cells featuring high-performance anodic and cathodic coating, for a total capacity of **300 MW** and an **overall value ranging between 30** and **40 million** euro.

De Nora's technologies will be employed in the first phase of the project, named **Onuba**, within Moeve's **Andalusian Green Hydrogen Valley**, which is expected to become the **largest** alkaline water electrolysis (Water Electrolysis – AWE) **project** for **green hydrogen** production in **Southern Europe**.

Once operational, the facility will have a production capacity of approximately **45,000 tons** of hydrogen **per year**, contributing to a **reduction** in **CO_2** emissions of around **250,000 tons annually**.

Paolo Dellachà, Chief Executive Officer of De Nora, commented: *"The involvement in the Moeve initiative, which is set to become the largest green hydrogen project in Southern Europe, reinforces our position as a technology partner of choice for the most ambitious energy transition projects. Growing demand for reliable and efficient green hydrogen solutions underscores the increasingly central role of electrolysis in supporting the decarbonization of industrial processes on a global scale."*

Industrie De Nora S.p.A. is an Italian multinational company founded in 1923 and listed on the Euronext Milan stock exchange. A global leader in electrochemical processes and technologies for water management, it provides products and services that enable industrial processes in the chlor-alkali, electronics, battery, water treatment (both municipal and industrial), and green hydrogen sectors. With an operational presence across multiple regions—including the Americas, Europe, the Middle East, and Asia—De Nora delivers customized solutions, effectively and reliably meeting market demands. Committed to ESG principles, the company integrates environmental sustainability and social responsibility into all its activities.
