

ALTEA GREEN POWER: CFO GIANCARLO SIGNORINI APPOINTED INVESTOR RELATIONS MANAGER

The appointment of Giancarlo Signorini represents a strategic decision as part of the wider process of evolving the Company's organisational structure

Rivoli (Turin), 13 July 2026 - **Altea Green Power (AGP.MI, hereinafter "AGP" or "the Company")**, a company engaged in the development of projects and the construction of "green energy" plants, following the announcement made on [3 June 2026](#), announces the appointment of Chief Financial Officer Giancarlo Signorini as the Group's Investor Relations Manager.

The appointment of Giancarlo Signorini forms part of a wider process of evolving the Company's organisational structure and ensures continuity in relations with the financial community.

Giancarlo Signorini, CFO and IRM of Altea Green Power, commented: *"I would like to thank the Company's management for this additional appointment, which is a tangible sign of appreciation for the work I have carried out to date as CFO and a demonstration of their esteem and trust. I shall continue to work with my usual commitment to successfully achieve the Group's growth objectives".*

About Altea Green Power

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in 2008 in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, and storage - that ensure maximum efficiency and operational reliability, all while fully respecting the environment. Altea Green Power is also an Independent Power Producer (IPP) focused exclusively on renewable sources and a supplier of EPC (Engineering, Procurement, and Construction) services, positioning itself as the primary point of reference for the construction and start-up of renewable plants. In a market where energy transition is central and medium to large-sized companies are increasingly taking the lead, Altea Green Power aims to be a key partner in the field of energy efficiency, helping its clients identify the best solutions to reduce energy consumption and mitigate the resulting impacts on global climate change.
