PRESS RELEASE

EuroGroup Laminations strengthens its governance: Renzo Argentin appointed Senior Vice President & Group Chief Operating Officer

- With over 20 years of experience in leading international industrial groups, Argentin will contribute to strengthening the Company's operational and managerial capabilities;
- In his new role, he will lead process improvement initiatives, enhance manufacturing efficiency and optimize industrial performance to support the Group's global growth and competitiveness.

Baranzate (MI), July 29, 2026 – **EuroGroup Laminations S.p.A.** ("EGLA") – a global leader in the design, manufacture and distribution of laminations and cores for electric motors, generators and transformers – announces the appointment of **Renzo Argentin** as the Group's **Senior Vice President & Chief Operating Officer ("COO")**.

Argentin's appointment represents a strategic milestone in the Group's strengthening process and within EGLA's Performance Improvement program, with the objective of consolidating an increasingly integrated and efficient operating model capable of supporting the Group's growth in an increasingly complex and competitive global environment.

As COO, **Argentin will be responsible for leading the evolution of the Group's operations**, with a particular focus on process improvement, increased manufacturing efficiency, optimization of industrial performance and strengthening the Company's ability to respond to customer needs, including through a more integrated management of the supply chain and operational flows.

Renzo Argentin brings to EGLA more than twenty years of experience gained in multinational industrial groups, including GEA Group, Marelli and Zanini. Throughout his career, he has held positions of increasing responsibility in the management of complex industrial organizations, leading operations, supply chain and financial management activities in international environments.

Marco Arduini, Chief Executive Officer of EuroGroup Laminations, commented:

"Renzo Argentin's appointment marks an important step in EGLA's growth journey. At a time when markets demand increasing flexibility, speed and integration capabilities, we continue to invest in top-level managerial talent to make our operations even stronger, more efficient and more competitive. Renzo's experience will be instrumental in accelerating the improvement of our industrial processes and strengthening our ability to support the Group's long-term growth."

"I am proud to join a Group that is a global benchmark in its industry and has built its leadership on a unique heritage of industrial and technological expertise. Together, we will leverage this heritage by further strengthening operational excellence, process integration and the organization's ability to support the next stages of growth," **said Renzo Argentin, COO of EuroGroup Laminations**.

EGLA: *EuroGroup Laminations is a global leader in the design, manufacture, and distribution of stators and rotors for electric motors and generators. The Group operates through two business units: (i) E-mobility solutions, dedicated to the design and manufacture of motor cores (i.e., stators and rotors) for electric motors used in the propulsion systems of electric vehicles, as well as a wide range of non-propulsion automotive applications; and (ii) Industrial & Infrastructure solutions, dedicated to the design and manufacture of stators and rotors for various industrial applications, home automation, HVAC equipment, wind energy, logistics, and pumps. The Group is also active in the transformer sector. Headquartered in Baranzate (MI), EuroGroup Laminations generated revenues of approximately €831 million in 2025 and currently employs approximately 3,000 people (excluded temporaries employees), with 8 production facilities in Italy and 7 abroad (1 in Mexico, 2 in China, 1 in the United States, 2 in India, and 1 in Tunisia), and an order backlog for the E-mobility solutions segment with an estimated value of approximately €2.6 billion and a pipeline of €1.9 billion.*
