

PRESS RELEASE

CIRCLE Group: New Contracts Worth Approximately € 300,000 for the development and implementation of MILOS® TOS at european intermodal terminals

From the optimization of rail flows to system interoperability, MILOS® TOS expands its functionality and integrations to support an increasingly digital terminal ecosystem

Milan, September 8, 2026

CIRCLE Group ("CIRCLE" or the "Company") – an Innovative SME listed on the **Euronext Growth Milan** market, heading the eponymous Group specialised in process analysis and the development of solutions for the innovation and digitalisation of the port and intermodal logistics sectors, as well as in international consulting on Green Deal and energy transition matters – announces **new contracts totaling approximately €300,000**, awarded by a **leading European operator in intermodal logistics**, for the development and gradual implementation of the **MILOS® TOS** platform within intermodal terminals.

These new projects mark a further step forward in the digital transformation of the terminals involved and aim to make the **management of logistics and rail flows increasingly integrated, interoperable, and efficient**, by expanding the platform's capabilities and enhancing its integration with the various systems within the operational ecosystem.

The scope primarily includes a further **functional evolution of MILOS® TOS**, with new developments dedicated to the management of the yard, rail flows, gates, and intermodal transport units, as well as the planning and execution of loading and unloading operations. The implementations also cover the management of master data, rail routes, operational areas, and tracks, along with more advanced tools for real-time monitoring and control of terminal operations. These developments strengthen the product's position in Europe and the Mediterranean.

A second area focuses on enhancing the **platform's interoperability** through the development of additional **APIs** designed to enable an increasingly structured and automated exchange of data between MILOS® TOS and other digital systems within the logistics ecosystem. Among other things, the new integrations will support reservation management and the sharing of information necessary for carrying out various operational processes, helping to reduce information gaps between systems and operators.

The project is rounded out by the **solution's implementation process**, which includes configuration and data migration, end-to-end testing, operator training, go-live support, and post-launch assistance. This set of initiatives is designed to facilitate the transition to an increasingly digital and integrated management model capable of ensuring operational continuity and efficiency.

*"The value of these new contracts goes beyond the economic dimension," stated **Luca Abatello, President and CEO of CIRCLE Group**. "In fact, they represent further confirmation of MILOS® TOS's ability to become an increasingly central digital infrastructure in intermodal terminal processes, integrating planning, operations, and data exchange. The project also strengthens CIRCLE's presence in a strategic segment that is fully aligned with the growth guidelines of the Connect 4 Agile Growth plan."*

Circle Group uses the [1INFO](#) system to disseminate information subject to disclosure requirements.

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME heading Circle Group, listed on Euronext Growth Milan since 2018 and specialised in process analysis and the development of solutions for the innovation and digitalisation of the port and intermodal logistics sectors, as well as in international consulting on Green Deal and energy transition matters.

The Group includes the software houses **Info.era**, **NEXT Freight**, **eXyond**, **Cargo Start**, **QMap**, the consulting firms **Magellan Circle** and **Magellan Circle Italy**, **NEXT Customs**, and the associate company **ACCUDIRE**.

In the field of digital innovation, the **Milos® Intelligence** platform integrates advanced AI, simulation and Digital Twin technologies to support decision-making processes and systems digitalisation, with solutions such as the **Extended Port Community System**, **MasterSPED®**, **Milos® TOS**, **Milos® MTO**, **Milos® TFP**, **Milos® Global Supply Chain Visibility** and **StarTracking**. Complementing the offer, **Federated Services (cloud-based)** enable a more efficient migration towards digital business models.

Through **Magellan Circle** and **Magellan Circle Italy**, the Group operates in Brussels and across Europe in advocacy activities with European Institutions, supporting public bodies and companies with **Strategic Communication and Advocacy** and **EU Funding Accelerator** services, with a focus on the Green Deal and energy transition.

With **Cargo Start**, specialised in technology solutions for air cargo, Circle has strengthened its offering in a segment that is strategic to the Connect 4 Agile Growth industrial plan. With **eXyond**, the Group is active in advanced infomobility services (**InfoBluNewGen**) and telematics solutions for the logistics, transport and insurance sectors (**Kmaster**).

Circle also holds a 20% stake in the innovative start-up **ACCUDIRE**, which provides a collaborative platform for document management along global supply chains, starting from e-CMR and e-DDT (electronic consignment notes). With **NEXT Customs**, the Group develops digital customs optimisation services, contributing to process harmonisation in line with the strategic directions of Connect 4 Agile Growth.

Circle S.p.A. has been listed on the Euronext Growth Milan market of Borsa Italiana since 26 October 2018 (alphanumeric code: CIRC; ordinary share ISIN code: IT. 0005344996).
