INTERCOS S.P.A.

INTERCOS CONFIRMS ITS "PRIME" STATUS IN THE ISS STOXX SUSTAINABILITY CORPORATE RATING.

Agrate Brianza, October 13th - This recognition confirms the strength and consistency of Intercos' journey in environmental, social and governance (ESG) matters and carries particular significance in the Beauty industry, where sustainability is becoming an increasingly important factor in clients' and consumers' purchasing decisions.

Sustainability is effectively no longer merely a matter of corporate responsibility; it has become a strategic driver of innovation, differentiation and competitiveness. Consumers are increasingly attentive to the environmental and social impact of the products they purchase, while leading Beauty brands are seeking partners capable of integrating sustainability, innovation and performance throughout the entire value chain.

In this context, the confirmation of Intercos' "Prime" status, based on data updated as of september 18, 2026, represents further evidence of the Group's ability to anticipate market developments and respond to the growing expectations of its customers and stakeholders, transforming sustainability into a tangible source of value creation and competitive differentiation.

ISS STOXX is one of the leading international ESG rating agencies, providing institutional investors and financial markets with data, analysis and assessments on companies' sustainability performance to support responsible investment decisions. Within its Corporate Rating framework, "Prime" status is awarded to companies that meet the most demanding sustainability performance requirements established by ISS STOXX for their respective industries.
