PRESS RELEASE

CIRCLE Group: new order worth nearly €200,000 for MILOS® TOS from a leading European intermodal logistics operator

The terminal digitalisation project continues, confirming the ongoing collaboration and the role of the Group's proprietary solutions

Milan, November 4, 2026

CIRCLE Group ("CIRCLE" or the "Company") – an Innovative SME listed on the **Euronext Growth Milan** market, heading the eponymous Group specialised in process analysis and the development of solutions for the innovation and digitalisation of the port and intermodal logistics sectors, as well as in international consulting on Green Deal and energy transition matters – announces **a new order worth nearly €200,000**, as part of the terminal digitalisation project of a **leading European operator active in intermodal logistics.**

The new order is part of the ongoing development and progressive deployment of the proprietary **MILOS® TOS** platform, which has already been the subject of several other orders announced to the market, and further expands the collaboration to support increasingly integrated management of logistics and railway processes.

The overall project aims to improve the planning, management and monitoring of terminal operations through an integrated and interoperable information system. In this context, MILOS® TOS supports the coordination of yard operations, railway flows and access management, facilitating information sharing between the various systems involved.

The expansion of collaboration with its customers confirms the continuity of the path undertaken and CIRCLE's ability to support the evolution of customers' operational needs through its software solutions. The order is aligned with the strategic priorities of the **Connect 4 Agile Growth** plan, contributing to the consolidation of the Group's offering for the digitalisation of intermodal logistics.

"*Terminal digitalisation requires continuous efforts to integrate processes, systems and operators. With MILOS® TOS, we support this process by translating customers' operational needs into functionalities and tools that support day-to-day management. The expansion of this collaboration*

strengthens our commitment to intermodal logistics, one of the development areas of the Connect 4 Agile Growth plan," commented **Luca Abatello, CEO of CIRCLE Group**.
